"Today's women leaders are Game Changers. They take charge of their careers and take charge of their futures. These women have made their mark in business and are exceptionally strong role models of what a woman can do. Giving recognition to these deserving women will also inspire future generations."

"During this 35th year of the national celebration of women's history, weaving the stories of women is at its core. The award, **Career Mastered: Women's Leadership in Action**, celebrates history by taking a look inside successful women's careers to enhance the process of women inspiring and encouraging one another. Women who have mastered their careers reveal exceptional stories and provide an expansive vision about women's success in Southeast Michigan.

These women are outstanding achievers in very competitive fields and were selected for their career accomplishments, iconic brand, powerful presence and dedication to Southeast Michigan's history and economy."
